

Where the heart of digitization beats

Researchers, developers, established businesses, **startups at scale11**, investors, coaches, **innovation labs**, international media. At d!tec, they all come together.

The result? A **leading event for digital disruption**.

Conference meets entertainment. The d!talk areas throughout the entire exhibition site and the **main stage, Grand Central**, act as the home of **inspiration**. Led by economic, technological, political and social **pioneers of digitization**.

The whole spectrum of **digitization** in one place. That is **unique in Europe**. Trade visitors, businesses and public sector clients create a **lively, emotional atmosphere** in completely redesigned halls. Paths become shorter, **visitor flows** become bigger. The integrated **conference and workshop format** also attracts nearby visitors who you would not meet otherwise.
